V2195

From the ... receipt of H.E. No. ... dt 25.9.43

Requesting sanction to the grant estimated for Rs 14,000/- for the annual maintenance charges of the Kolar water works, for 1943-44 and also a grant of Rs. 4,660/- in this behalf, as a sum of ~~Rs 4,660/-~~ Rs. 9,340/- is found to have been provided for in the sanctioned budget of the W&F for 43-44

A letter No. A-5 PR 138/43, dt 28.9.43 from the D.C. Kolar Rest recommending sanction to a grant of Rs 4,660/- for the above purpose

1) A draft GO is submitted for approval, the grant share of the cost amounting to Rs 4660/- may be met out of the current years water supply grant

2) Please note the financial condition of the Kolar Town Municipal Council according to the sanctioned budget for 43-44

14.10.43

3) The financial position of the K'Kan Town Ctee for 43–44 is very unsatisfactory, closing balance being a minus figure

4) In these circumstance the grant plant of Rs 4,660/- prayed for towards the said charges, may perhaps be given, the same being met from out W S grant for the current year and the estimate for Rs 14,000/. Sanctioned

subto with reference to para 2/Proc ma 16/10/43 In the Budget of the K'Kan Town Ctee Sanctioned for 1943 44, a provision of Rs 9340/- is made for the maintenance of water supply plant etc at the place The estimated cost of annual maintenance for the year by reasons given by the C upto Rs 14,000/- A sum of Rs 4660/- is required to make up the deficit over the above budget provision Both the Dy P-H & the D-C. have recommended that the above amount may be met out of the water supply grant for the current year paid by Govt as grant

The financial condition of the K'Kan Town Ctee is no doubt unsatisfactory but the proposal involves a matter of principle as to whether the Govt should make grants to the Ctee

WD 01809—GPB—60 000—26 1 43

every year to meet the annual maintenance charges first have to abide the rules in regard to the Capital expn in such cases by meeting a moiety of the expn
The maintenance of water supply plant etc is an Obligat, duty of the Mlty under the Tuni Mlties Act 1933
So far Govt have been meeting a portion of the annual maintenance charges of the waterworks at Nanjangud On the request of the Mlty Council is acceded it would then be an extension of the Concession now in operation at Nanjangud
Having regard to the above facts, the proposal is for consideration
Perhaps it might be sanctioned for the current year with the direction that from next year onwards the entire Annual Charges should be met out of the funds of it is sanctioned, the amount of Rs 6,500 will have to be met out of Water supply grants during the current year.

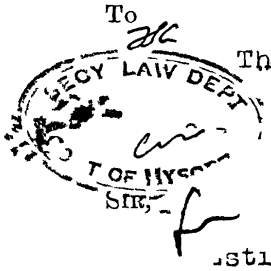
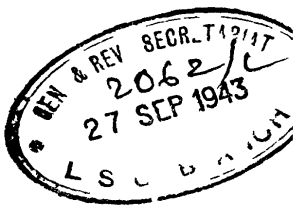
Bangalore, dated 25th Septr *1943*





To
The Secretary to Government
Law Department, Bangalore

Sir,

Estimate for the Annual maintenance of Kolar Water Works during 1943-44
==

I have the honor to forward herewith for sanction of Government the annual maintenance estimate of the Kolar Water Works for 1943-44 for Rs 14,000, duly countersigned by the President, Municipal Council, Kolar A copy of letter No C 94/43-44 dated 1-8-1943 of the President, Municipal Council, Kolar addressed to the Sanitary Engineer requesting for a Government Grant of Rs 4660, towards the maintenance charges, is also enclosed herewith for the information of Government

The excess in the estimate for 1943-44 when compared to the revised estimate of 1943-43 is mainly due to the necessity for purchase of sulphate of alumina at an increased cost of Rs 450 a ton as against Rs 150 to Rs 300 a ton in the previous year The turbidity of Kolar Water supply is very high and it is taking a high dosage of alum for purifying the same

Office of the Deputy Commissioner,
Kolar District,
Dated, Kolar, the 27th Sept. 1943.

To

The Secretary to Government of Mysore,
Law Department, Bangalore.

Sir,

In forwarding herewith a copy of letter No.348 dated 10-9-43 addressed to the Director of Public Health in Mysore by the Sanitary Engineer, Bureau of Sanitary Engineering, Re the modified estimate for the annual maintenance of the Kolar Water works during 43-44, I have the honour to state that the estimate is worked out provisionally at Rs 14,000/- as against Rs-10,620/-during 1942-43 and Rs 7,740/- during 1941-42 therefor The vast increase in the cost of maintenance during these ~~two~~ years is attributed to the rise in the price of the sulphate of alumina which is stated to be absolutely necessary for this work, on account of the high turbidity of the water at the source. The financial position of the municipality is bad as already brought to the notice of government by their budget estimates for the year 43-44 and as such it would be difficult for them to meet

P.T.O

Letter No 348 dated 10th Sept 194[illegible], from the Sanitary Engineer, Bureau of Sanitary Engineering, Bangalore, to the Director of Public Health, in Mysore, Bangalore

Re Modified estimate for the annual maintenance of Kolar Water works during the year 1943-44

In submitting herewith the annual maintenance estimate of Kolar Water works for the year 43-44 amounting to Rs 14,000/- duly counter signed by the president, Town Municipal Council, Kolar for obtaining Government sanction, I have the honour to enclose herewith a copy of letter No C C 94/43-44 dated 1-8-43 received from him, requesting sanction by government for an amount of Rs 4,660/- as a Government contribution to meet the Annual Maintenance charges In this connection it is to be stated that the excess charges are entirely due to the necessity for purchase of sulphate of alumina at an increased cost of Rs 450/- a ton as against Rs 150/- to Rs 300/- a ton in the previous year The turbidity of Kolar water supply is very high and it is taking a high dosage of alum for purifying the same

It has to be stated that during the last year the Kolar Town Municipal Council was strained to a very great extent due to the Kola water supply tank, viz Ammerahalli Tank getting dried up and the Municipal Council had to put themselved to heavy additional expenditure for making temporary aggangerents for sinking a well in the Ammerahal Tank and installing pumps temporarily both there and also in the Kola Amanikere Tank Under these circumstances, the request of the Municipal President appears to be reasonable and the grant praved for by him as subvention may kindly be given to them as a special case The figures of annual maintenance for the previous years, viz Rs 7740/- in 1941-42, Rs 10,620/- in 42-43 and the provisional figure for 43-44 of Rs 14 000/- each speaks for itself, indicating the very high running charges due to inordinate cost of materials

Memo No 299 dated 10-9-43 from the Sanitary Engineer, Bangalore

Copy forwarded, with compliments, to the Deputy Commissioner, Kolar District, Kolar, for favour of information It is requested th government may be addressed by the Deputy Commissioner, for a special grant

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE

Read

Letter No.C.85-7 dated 25th September 1943 from the Director of Public Health in Mysore, requesting sanction for an estimate for Rs.14,000/- for the annual maintenance charges of the Kolar Water works and to a Government grant of Rs.4,660/- towards the said maintenance charges.

2. Letter No.A.5.P.R.138/43 dated 27/28th September 1943 from the Deputy Commissioner, Kolar District, recommending sanction to a Government grant of Rs.4,660/- towards the cost of the work referred to above.

Order No.

Dated, Bangalore, November 1943.

The estimate for Rs.14,000/- is sanctioned.

The Government share of the cost amounting to Rs.4,660/- will be met out of the water supply grant for 1943-44, as a special case only for this year. The balance of Rs.9,340/- will be met by the local Municipal Council from out of the provision made therefor in the current year's sanctioned budget of the Municipality.

The entire cost in this behalf should be met by the Municipal Council from out of the funds of the Municipality from next year onwards.
